La Grange Park, IL

### BROOK PARK ELEMENTARY SCHOOL

Brook Park Elementary School will undergo demolition of several existing structures to make way for a 49,000-sf elementary wing that will encompass two-stories. The wing will include six new classrooms for full-day kindergarten, and will consolidate Early Childhood programming into one building. Ten new first and second grade classrooms are planned, with wifi access available throughout and interactive displays in each classroom. The new gymnasium will offer a performing arts space that doubles as a bonus specials room.
