

THANK YOU TO OUR DONORS!

We can't do this alone, and are grateful for the generosity of our partners that have donated to the Foundation. Please consider supporting the firms that have helped us bolster the charitable work being done in Chicagoland to improve the lives of others.

Building A Safe, Private Garden for Anixter Center's Residents

The Executive Construction Foundation partnered with Anixter Center on exterior improvements to one of their facilities housing DeafBlind residents. The space was formerly wide open, but our team worked together in late May to improve the home's yard with a cedar wood stockage fence, landscape upgrades, and multiple raised wood timber planter boxes for gardening. The new gardens contain fragrant flowers, vegetables, and herbs, as the DeafBlind residents' other senses are heightened. Our volunteer team is so proud and humbled to have built these residents a safe, private space to enjoy their new gardens. **A special thank you to Classic Landscape Ltd. and Action Fence for their donations, as well as our Foundation donors that continue to help us make a difference!**

Anixter Center has proudly served hundreds of thousands of people in the Chicago area since 1919. Today, they focus their work on serving people with disabilities, behavioral health needs, and people who are Deaf, DeafBlind, or Hard of Hearing through a variety of programs.

A Vision for a "Forever Home"

Executive Construction team members collaborated with AMDG Architects to develop and estimate a conceptual design package for Reclaim13's "Courage House", a new transitional prototype facility for trafficked young adults. Reclaim13 will use this package, which includes a video animation by AMDG and presentation developed by our marketing team, to assist in future fundraising.

Reclaim13's mission is to end the cycle of sexual exploitation. This cycle begins in an individual's life, and without intervention, continues into the next generation. Most trafficked children were sexually abused, neglected, or received other forms of maltreatment as children. Once abused, a child is more vulnerable to further abuse and, potentially, exploitation. Child sexual exploitation has potential long-term consequences in the life path of survivors, including vulnerabilities for intimate partner violence, further abuse, and involvement in damaging relationships. Reclaim13 intervenes in this cycle and works toward a world where all children can grow up feeling safe and loved.
